<b>Advantages</b>	Quick to put on. Slimline look. Popular with nurseries and childminders.	Only need to buy one size. Convenient if you have two babies in nappies at once. Excellent protection against leaks. Easy to <a href="#">boost</a> if required.	Spread the cost as your baby grows. In young babies gives a more slimline look than a birth-to-toddler nappy. Excellent protection against leaks. Easy to <a href="#">boost</a> if required.	Slimline look. Very durable.	Quick to dry. Very versatile, can be folded to suit boy/girl, light/heavy wetter or baby/toddler.	Once stuffed as easy to put on as a disposable. Quick drying. Excellent for night-time use, by customers of nappy laundries and for nurseries and childminders.
<b>Disadvantages</b>	Take longer to dry. Only one elasticated barrier against leaks (at legs and waist). Harder to <a href="#">boost</a> . Need to be purchased in more than one size. Not as hard wearing.	Might be a bit bulky at first on a small newborn.	Need to be purchased in more than one size.	More prone to leaks with a pre-weaned baby. Need to buy lots more sizes of nappies and <a href="#">wraps</a> . If <a href="#">boosting</a> by using two pre-folds together, there can be quite a lot of cloth between the legs.	Need to be folded, which can take a bit more practice, especially with a wriggly baby.	Need to buy more <a href="#">wraps</a> for a younger baby.
