

Research electronics before you buy

- Your choice of electronic purchases can have a direct impact on the amount of resources used to produce them, such as energy
- By choosing a greener option and brand, you are helping to inform the electronics industry what consumers want
- Check brands for their:
 - Commitment to renewable energies
 - Resource consumption
 - Chemical components used in production of electronics
- Use [this handy tool](#) to see how brands compare and make an informed choice.

Action #29

Research electronics before you buy
