

Changeworks works with organisations, community groups

and individuals

to reduce

carbon emissions,

fuel poverty and waste

Here is our year in numbers 2015-16

Throughout the year we monitor our progress and measure our success

We collaborate with everyone we work with

to reduce their carbon emissions

Wow!

245,500 tonnes of CO₂e* Saved

This equals emissions produced by 29,000 people in a single year

We helped 53,300 people and 1,900 organisations

We're innovative in helping others to live and work more sustainably

along the road, we trained 1,600 businesses, community groups and individuals

We empower Scottish householders

to be warm at home for less

We achieved a £23 Million reduction on people's heating and electricity bills

We are passionate about tackling fuel poverty

We helped 2,100 people in fuel poverty

get improvements made to their homes

and improved the confidence of 1,400 vulnerable clients in dealing with gas and electricity suppliers

I can fix it

We inspire businesses, communities and individuals to REDUCE, REUSE, RECYCLE

We reduced and reused 240 tonnes of materials with communities and schools

We recycled 5,200 tonnes of materials for businesses

We're proud of the skills and expertise of our people

94% of employees would recommend Changeworks as a great place to work

82% of our volunteers are positive about working with us

Yay!

200 employees and volunteers

We act with integrity

For every tonne of CO₂e* our activities generated

we helped to save... 743 tonnes of CO₂e*

Our carbon footprint was 344 tonnes of CO₂e*

We achieve national and international standards

- Living Wage Employer
- ISO14001
- Investors in People
- Investing in Volunteers
- European Foundation for Quality Management 'Committed to Excellence' recognition

Commendation: VIBES Awards 2016

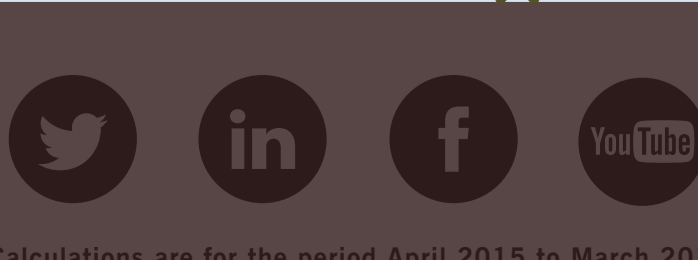

Winner: Scottish Public Service Awards 2016

*Calculations are for the period April 2015 to March 2016. Our carbon footprint is calculated using the Carbon Footprinting methodology set out by the Carbon Trust. All Carbon Dioxide equivalent (CO₂e) calculations are made with reference to the most up to date Defra conversion tables available at time of calculation. CO₂e includes all climate changing gases. All savings whether CO₂e or financial equate to the lifetime impact of the action or measure.
